SEWING MACHINES.

LANGLEY & NORMAN would inform the citizens of Newport and vicinity, that they have been appointed agents for GROVER & BAKER'S CELEBRATED SEWING MACHINES, and that they are now prepared to furnish Manufacturing or the improved Family Machines, at Manufacturers' prices.

We would invite especial attention to the IMPROVED SHUTTLE MACHINE, it being very simple, not liable to get out of order, uses a straight needle, runs with great speed, and makes the stitch alike on both sides. Though made expressly for TAILORS AND SHOE BINDERS, it is found to be as well, if not better, adapted to the general work of a family as any machine that has yet been invented. These machines are sold for $50, though capable of doing any work that can be done with any of the $100 Sewing Machines. ap4tf

A NEW MUSIC BOOK!

OR THE

New York Musical Review,

FOR NOTHING!

We have in press, and shall publish in October, "ASAPH, OR THE CHOIR BOOK;" a new collection of Church Music for Singing Schools and Choirs, by Dr. LOWELL MASON. Dr. MASON'S last similar work, published in 1854, reached the enormous sale, in its first year, of over 44,000 copies, which is, we are confident, the largest sale ever enjoyed, in its first season, by any Church Music Book by a single author. The work now in press will embrace *nearly all new matter*, culled with great care from numerous sources, such, as it is believed, will be of the highest interest to Choirs and Singing Schools. Its Singing School Department is more extensive and complete than in any previous work, being, indeed, a complete work in itself, and forming an extensive collection of secular music, the words, as well as music to which, are nearly all quite new. Retail price, one dollar.

We publish, also, THE NEW YORK MUSICAL REVIEW, a fortnightly journal of sixteen quarto pages, including four pages of choice music in each number, with twelve pages of reading matter, including frequent articles from the leading musicians of the country, with all the musical news, &c., &c. Subscription, $1,00 per annum.

In view of the present hard times, and with the purpose of obtaining a wide circulation for specimen copies of Dr. MASON'S new work, we are induced to make the following liberal offer, viz.: To every one sending us, before 1st November, one dollar, (the price of subscription to the REVIEW,) we will furnish the paper for a year, and also, as soon as issued, a copy of Dr. MASON'S new work above announced, thus giving two dollars' worth for one. Those desiring the book sent by mail, must inclose twenty-four cents, to pay postage, in advance.

TO the good People of Newport and Vicinity,—

In view of your past generous patronage, I have now at my store, 130 Thames St., a large and well assorted stock of Books and Gifts, suitable for the Holidays. And wherever, it would be utterly impossible for me to enumerate the titles of books suitable for all ages and conditions, to name thousands of elegant and appropriate presents, and whereas, the columns of this paper are inadequate to state a thousandth part of what might be said, I, A. J. WARD, Agent, do issue this my Proclamation, and do agree to sell good and cheap to the citizens and strangers of Newport and vicinity, until this Proclamation be annulled, and you are all invited to my Headquarters, No. 130 Thames St., to test the truthfulness of this my Proclamation.

(Established 1827.)

IT SEEMS UNNECESSARY, after being in the battle-field for 34 years, to come out with strong advertisement, but as we have many new comers, it is right that they should be pointed to the right place to buy good articles, and at a moderate price.

I will sell Custard Cream at 30 cents per quart, according to quality, up to 62 cents for pure. Plain to very rich Cake, from 17 to 33 cents per pound. Candies from 16 to 25 cents per pound. All kinds of Gum Drops, when sold by the pound, 25 cents.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State Street, opposite Kilby Street, BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but though its inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere.—The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.

CHARLES MASON,

Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting there applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMOND BURKE,

Late Commissioner of Patents

Mr R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that *is now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges."

JOHN TAGGART,

During eight months the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

R. H. EDDY.

"LITTLE WIFE."

Cousins—as boy and girl, we watched
The glow-worm and the star,
Made mimic trenches on the sands,
And gathered shell and spar;
We built the snow-men in the drift,
We nutted in the park;
I called her, shyly, "Little wife,"
And kissed her in the dark.

For years our paths lay wide apart—
As wide as sun and sea,
And when we met again, she seemed
Half strange, half shy, with me;
But, guests together at the farm,
We soon recalled to life
The memory of those early days
When she was "Little wife."

A whisper at a wedding dance—
A blushing, bending face—
And then I heard the welcome word
That gave me cousin Grace—
That gave me her whose love dispelled
The shadow on my life,
Who lays her hand in mine to-night,
And is—my "Little wife."

Slavery—An Eastern Apologue.—Abdallah, set at his morning meal, when there alighted, on the rim of his goblet a little fly. It sipped an atom of syrup, and was gone. But it came next morning, and the next, and the next again, till at last the scholar noticed it. And lo! a wonder, it became daily larger, and yet larger, till there could be discerned, in the size as of a locust, the appearance of a man. From a hand-breadth it reached the statue of a cubit, and still, so winning were its ways, that it found more and more favor with (his son of infatuation. It frisked like a satyr; it sang like a peri, and like a moth of the evening, it danced on the ceiling. Like the king's whithersoever it turned it prospered. The eyes of this simple one were blinded, so that he could not, in all of this perceive the subtlety of an evil gin

Therefore, the lying spirit waxed bolder, and yet bolder, and whatsoever his heart desired of daily meats he freely took; and when the scholar waxed wroth, and said, "This is my portion from the table of the Mufti; there is not enough for thee and me," the dog-faced deceiver played some pleasant trick, and caused the silly one to smile.

But, in process of time, the scholar perceived that as his guest grew stronger, he grew weaker. Now, also, these arose frequent strife between the demon and his dupe, and at last the youth smote the fiend so sore that he departed for a season. And when he was gone, Abdallah rejoiced, and said: "I have triumphed over mine enemy; and whensoever time it pleaseth me I shall smite him so that he die. Is he not altogether in mine own power?"

But, after not many days, the gin came back again, and this time he was arrayed in goodly garments, and he brought a present in his hand; and he spoke of the days of their first friendship, and he looked so mild and feeble that this dove without a heart was wrought upon by his smooth words, and saying, "Is he not he a little one?" received him into his chamber. On the morrow, when Abdallah came not into the assembly of the studious youths, the Mufti said; "Wherefore tarrieth Abdallah? Perchance he sleepeth." Therefore they repaired to his chamber, but to their knocking he made no answer. Wherefore the Mufti opened the door; and lo! there lay on the divan the dead body of his disciple. His visage was black and swollen, and on his throat was the pressure of a finger, broader than the palm of a mighty man. All the stuff, the gold, and the changes of raiment belonging to the hapless one were gone, and, in the soft earth of the garden, were seen the footsteps of a giant. The Mufti measured one, and behold! it was six cubits long. Reader, canst thou expound the riddle? Is it *Slavery.*

THE TAX ON NEWSPAPERS.

It may seem like pleading for our own personal interests, when we protest against a heavy tax on newspapers, but it is, in reality, pleading for the best interests of the country. More than any other, our Government is founded upon the intelligence of the people. As the nation grows older, property centralizes; the masses of the poor become greater, and they must resort less and less to expensive modes of education. We believe that the newspaper must take their place; must take the place of schools, of colleges of books. They must gauge the great level of popular knowledge; and if they do not scatter it, no agency will. We must depend on them, more than ever, to educate the people. If they are heavily taxed, the people must pay, and this tends to diminish and confine circulation to narrow channels. Ignorance will plant its footsteps of darkness, where the light of the press is withdrawn; and from these footsteps will spring up the powers that will undermine our liberties.

Sir Elward Bulwer Lytton more than twenty seven years since introduced a bill into the Commons to repeal the tax on knowledge, including the duty on newspapers. Says he—

"Gentlemen spoke of conservatism as requiring the restrant and regulation of the press! How are people to be made conservative? Is it by a stern and lifeless system of restraint and terror—or is it by encouraging a free press to inspire a generous love for the laws, the liberal altars, and the glorious people of the land in which we live? What is the government to be conserved? Not a crazy and decrepid form that must shrink from every breath of air, that cannot fade the rude popular gaze of the people, nor stand the manly shocks of contending opinion. No it is a robust organization of sound principles, which receives its life and soul not more from the wisdom of statesmen than from the courage of dauntless patriots. And we, as legislators, should prove that we do not fear discussion, that we do not desire to impose a tyrannical yoke, that we do not wish to swell our revenues by further taxes on knowlege, and that we appreciate our newspaper press, as an honor to the country."

England appreciates the benefits of of knowledge, the necessity of knowledge among the people. She has made that knowledge free. The most interesting debates in the Commons for several years occurred on the repeal of the duty on paper some two years since. In that debate the necessity of the general diffusion of knowledge among the people, for the maintenance of the laws, and the safety of the British Constitution, was the leading idea,—we may benefit by their experience. Says Mr Colfax on this subject—

"I agree with gentlemen who think that newspaper publishers ought not to escape a fair proportion to the public burdens. The question is, whether they are not required to pay more than their share. According to this bill they pay through the advertising tax upon the staple which they work up. The wool manufacturer does not do that: the copper manufacturer does not do that; the flour manufacturer does not do that; and I am glad that none of these classes do. But the press do. And then it pays besides a tax upon the matter put into its pages, telegraphic messages, &c.; and in addition to that it pays, as all other professions do a tax upon its income;"

Mr Kellogg, of Michigan, said, in attempting to procure the exemption from taxes on advertisements of all newspapers whose circulation does not exceed two thousand copies:

"The tax would destroy every small newspaper in the country just when we need them. A good has been said as to taxing every class in society. It seems, Mr. Chairman, that in this case not only is the printer taxed, but the community is taxed. We want newspapers. We want them cheap. We will need the influence of all the newspapers in the country to defend this law and explain it to the people; and it is not well for us to impose an onerous tax on those whom we expect to do what they can in defence of this measure, which is necessary for the salvation of the Government. I hope that this tax on advertisements will not be imposed at all or if it be, that the country newspapers will be exempted from it entirely."

We believe the general sentiment of the country will sustain the position of these gentlemen. We have no desire to shirk responsibility; but the safety of the country requires that the people should be educated; and the newspaper is to be the greatest instrumentality for that purpose.

Semi-rebels in Baltimore say that Gens. Lee, Magruder and Huger are all at Yorktown, and that the national army cannot conquer them. But they admit that a defeat there would be disastrous. Union officers from Yorktown estimate the rebel forces at from 75,000 to 100,000, but add that they are surrounded.

LOCAL NEWS ITEMS.

Miss Dickerson's Lecture.—The vestry of the 1st Baptist Church last evening contained a goodly number of eager listeners to this truly eloquent speaker, all of whom had something to think about when they went away. At a little before eight o'clock Miss Dickerson was introduced to the audience by Col. Wm. B. Swan, and for nearly an hour and a half she brought up in rapid succession the historical events of the nation from the framing of the Constitution, to the more recent occurrencies connected with the present rebellion, showing in bold colors what had been the causes which had led to the present national crisis, and what, in her opinion was the *only* remedy. The head of the nineteenth century required a *reason* for war. The reason for this war could be found in history, and when summed up, they are expressed in the one word *Slavery*.

She brought arguments to show how the Florida war, as well as the one with Mexico had been made subservient to the sustaining of this hellish institution.

The blood of Northern soldiers had been spilt in Mexico and Florida, and all for the extension of slave territory. She was somewhat severe on the Democratic party and made it appear that for many years they had, both North and South, been the tool of the slave power, and that they had for the last eight years, previous to the present administration, occupied our house, and when they moved away stole our knives and forks and spoons, and left us in a domestic calamity. The present administration had not taken the proper ground, but as long as they cherished slavery they could never win. The men who had gone from the North were the wealth of the nation—the men who performed the labor, while the army of the South was made up of those who, if not engaged in fighting, would spend their time in luxurious laziness; so that the industrial pursuits of the South were none the worse off for their absence.

The seat of the rebellion she thought had not yet been reached, and our present victories in the border states and on the Southern coast would not dishearten, but only infuriate the rebels. Their object is to draw us on to the Gulf States, where two or three months hence, our soldiers will be swept away by the fearful miasma, like mist before noon-day sun.

The speaker did not cherish a very exalted opinion of Gen. McClellan, and thought that neither Washington or Napoleon would have staid six month with an army of only one hundred and twenty thousand, and armed with wooden guns at that. Her opinion seemed to be, to use our own expression, that Gen. McClellan was either a traitor or a doughface.

But aside from her peculiar political sentiments, we have seldom heard a more eloquent speaker, with a power of argument and command of language that the man of years might be proud to possess; with a musical voice and clear utterance that could not fail to attract the most careless listener, together with her youthful appearance and winning address, make it a pleasure to listen, even though she advanced some most unwelcome statements, and made war on our favorite political theories.

The Railroad.—This great enterprise, which bids fair to add so much to the interests of our city, is progressing finely.—Men, horses and oxen are kept constantly at work on the section which enters the city. The grade has already extended across Bridge Street and some distance into the Cove. It is thought that a track will be laid in a few days from Walnut Street to the Cove, by which means a much larger amount of dirt can be removed with the same labor than is now accomplished.

A bridge sixteen feet high is to be built over the railroad where it is crossed by Walnut Street. The average depth of the cut that will have to be made north of Walnut Street is estimated to be eleven feet. The two story building standing on the corner of Bridge Street, which has been purchased by Mr. George B. Hazard, is raised on blocks ready to be removed. We understand that Mr. Hazard intends to move it to the corner of Elm and Fourth Street, but for what purpose it is to be used we are not as yet informed.

New Building.—The new house of Mr. Thomas M. Norman which is being erected on Spring Street between Touro and Mary is progressing rapidly. Three days ago the only appearance of a house was a cellar.—To-day a house two and a half stories high, 34 by 48, with three peaks, is to be seen raised and covered. It is being built by Mr. Abraham Coggeshall, and is to be finished in true city style. It is thought it will be completed in about three weeks.

The Waters Troubled.—The lecture of Miss Dickerson last evening formed a subject of considerable comment about the streets this morning. At several corners small groups were seen discussing its merits. While some spoke of her arguments in terms of the highest praise, others denounced them in the most bitter language and regretted that such sentiments should find a refuge from a storm of indignation protected as they were by calico and crinoline.

Musical. One of the signs of the approach of the fashionable season appeared in Thames street this morning, in the shape of one of those stereotype musicians called Organ Grinders. "Dixie Land," "The Star Spangled Banner," and other popular airs were "ground out" with awful melody.

History of the Naval Academy at Marshall.

—This neatly gotten up work, in blue and gold, is just the thing wanted at the present time, especially in our community, where everything in reference to the Naval Academy is eagerly sought after. The book contains in addition to a history of the institution, biographical sketches and names of all the Superintendents and Graduates, to which is added a record of some of the earliest votes by Congress of Thanks, Medals and Swords to Naval officers, together with a vast amount of interesting particulars concerning the studies, discipline and necessary qualifications of Midshipmen. For sale in Newport, by C. E. Hammett, Jr.

Trinity Church.—In consequence of the absence of Rev. O. S. Prescott who is unavoidably away, owing to renewed family afflictions, the services announced in this church for to-day and to-morrow will not take place. The Rev. J. H. Anketell will officiate on Sunday at the usual hours.

Mr. Prescott has been zealous and faithful in his frequent services during the season of Lent, and his congregation will not only miss him but deeply sympathize with him and feel the bereavements which make his absence necessary.

Coal and Wood.—Our advertising columns announce the dissolution of the firm of Oman & Bradford together with the fact that the business will hereafter be conducted by Mr. Bradford, late junior partner of said firm, in which capacity he has earned the good will, not only of patrons, but of the community at large. Mr. B. is a straight forward, honorable business man and we bespeak for him not only the patronage of the former customers of his firm, but that of our citizens generally.

Historical Society.—By advertisement elsewhere, it will be seen that an adjourned meeting of this Society will be held at the Newport Reading Room, at 8 o'clock this evening.

Personal.—We observe by the *Boston Advertiser* that George W. Fludder, of this city, has reported for duty, as Masters Mate, at the Charleston Navy Yard, and is ordered for gunnery practice on board the Ohio.

Corinth.

If it should prove true that our cavalry has driven the rebel army of Beauregard beyond Corinth, then indeed is their rout complete. Their reserves, if they had any, must have been at Corinth, and here they would have been likely to make a final stand. We await with anxiety the confirmation of this report. The following description of Corinth will show its strategic importance:

"Corinth, Mississippi, is at the intersection of the Mobile and Ohio, and Memphis and Charleston railways, in Tishimingo country, ninety-three miles from Memphis, forty miles from Grand Junction, one hundred and fifty-five miles from Columbus, Kentucky, fifty-eigot miles from Jackson, Tennessee, eighty miles from Decatur, Alabama, and about twenty miles in a direct line from Savannah, Tennessee. From Pittsburg, where the recent battle was fought, the distance to Corinth is about eighteen miles, by a good turnpike road.

Corinth is a very important strategical point. It is situated in a hilly, semi-mountainous country, a branch of the Apalachian range, which divergos from the Alleghany mountains, and forms the mountains and goldbearing regions of Georgia and Alabama. The village is nearly surrounded by an irregular circle of hills, rising on the north, about four miles distant, with the State line between Tennessee and Mississippi crossing their summit. The Mobile and Ohio Railway crosses this ridge through a cut seventy-five feet in depth. Similiar cuts, of lesser depth, penetrate the hills on the east, west, and south, where the railways enter. Beyond these hills, in the direction of Pittsburg and Savannah, the ground becomes more level, and much of it is low and swampy.

The particular location of the rebel fortifications at Corinth is not known, but from the topography of the region it is not difficult to perceive that the place is one susceptible of strong defense."

The English Newspaper Correspondents.—By a Washington letter of the 7th in the New York *Commercial*, it seems that Russell was loth to leave the United States. The writer says:

"Dr. Russell lingered here yesterday, hoping to obtain a recall of the edict which prevented his going with his friends of the British Guards to Yorktown, But although he was industrious in writing appeals to gentlemen in authority, no one seemed disposed to volunteer as his champion and procure a revocation of the prohibition.

The other English special correspondents here are not at all jolly, and some of them have left for the West, where they hope to find Gen. Halleck less inexorable. Others hope to smuggle themselves into some friendly staff, and go to the wars unmolested.

Mr. Russell's salary is said to be about ten thousand, and all his traveling expenses, including extra dinners, a secretary and two horses, are paid for by the *Times*, in addition. All this will probably stop now. No wonder he felt bad about leaving.

Boston Journal.

Yorktown, now under siege, is situated on the right bank of the York River, seventy miles from Richmond. It is an old town, settled in 1705, and now has about fifty houses. It was the theatre of one of the most important events in American history, the surrender of Lord Cornwallis to Gen. Washington, which occurred on the 19th of October, 1781. York river is about forty miles in length, and at its mouth is probably three miles in width.—The Confederates are reported previously as having erected strong fortifications along its banks; the works at Gloucester Point, opposite Yorktown, are represented particularly to be very formidable.

Review of the Rev. Edward Lathrop of Rev. Mr. Mahoney, delivered in St. Mary's Church, Wednesday evening April 9th, on the text: "Why Catholics do not take the Bible as others do."

Mr. Maguire commenced by reading from the Catholic translation of the New Testament. Phillippians ii; 1st to 10th inclusive. He then proceeded as follows:

We find my beloved brethren that as early as Saint Paul wrote to the Phillipians, which was about twenty-nine years after Christ, there were persons who wished to impose upon their Jewish ceremonies.—The early Christians being troubled by these, St. Paul writes an Epistle to them, "to be of one mind," that it might keep them from contention, and he did like Christ in this respect. To "Preach the Gospel to every creature," was the work of the Apostles.

One week ago to-night I discussed this point, that *Catholics* had means of interpretation, while *Protestants* believe that every person is his own interpreter.—There is not a text from Genesis to Revelation, that hints that all who read the Bible can understand it all. I remarked that all must be able to read the ancient languages, Greek, Hebrew, Chaldie, &c., to understand the Bible. They must be able to read, not only the Bible, but all books connected with it. Some die young before they can learn to read, but if they died before they could do this they must surely be lost. I showed that Catholics believe that Christ established a body of teachers to interpret the Bible. This has worked well from Christ's day to the present time. I showed that there were Councils held to decide on what was and what was not truth.

But there is one point upon which I wish to speak. It is upon the interpretation of the Bible. I hope I shall have time to show the wisdom of God in the Catholic system, after I have shown the insufficiency of taking the Bible by private interpretation. I will suppose the Bible is just what the Protestants call it, a book that every man may read and interpret for himself. What did they do for the first fourteen hundred years, before printing was invented when so few knew how to read? Perhaps it will be said that they got others to read it for them. This has been carried on for the last three hundred years, yet no one can give us the text to prove that this system was followed. Let me ask, where is the minister who reads the whole thirteen hundred chapters of the Bible to the people? And if they do not read it, what is to become of the people? The apostles must not only have taught them the doctrines, but they must first learn them to read their letters. All who die before they can read must surely go to hell, for this must be the deduction if it is by reading and interpreting for themselves. Put these things together, and this system will send ten times as many to hell as there are now on the earth. The Bible, interpreted by every individual, cannot be the means that Christ intended should be taught.

Peter says that "no prophesy is of any private interpretation." If the Bible is to be understood by every one, it should be a very easy book; but Peter speaks of St. Paul's Epistles that are hard to be understood, which some wrest as they do other Scriptures to their own destruction. It must be of the greatest and deepest importance that we understand this scripture. We see that the apostles, after they had been schooled for three years were not schooled enough to understand the scriptures fully; and if the apostles could not understand after all this training how can the common people understand it?

When Philip met the Enuch, and asked him if he understood what he read, did he answer that he understood all about it? He answered "How can I understand except some man should guide me?"

We find that in all past ages, men of piety have declared that the Bible was a hard book to understand. In Luther's letter to Zwinglius he says, if the world should last a hundred years, it will be necessary to go to Councils in order to preserve the unity of faith. In another place he said he did not know whether he had the truth or not. This shows that at that early day the Bible was not so easy to be understood. In the American Cyclopedia, under the word "Bible Societies," it says; "History shows that many follies are daily committed by not understanding the Bible. The Protestant Bible was translated without notes, to give every denomination an opportunity to make their own commentaries.

Then add together the different times of the writers of this book, and the various circumstances under which it has been written, and we shall conclude it is not so easy a book.

If we cannot understand the Constitution of the United States a work that contains only about one hundred and twenty sentences, and which we are taught to read from our cradles, how can every one understand a book written many hundred years ago? If we cannot understand a speaker when we can see and hear him, how can we understand this book.

But let us consult experience. Look at the early wars, and all on account of not understanding the Bible. Two hundred different interpretations were given to a single sentence, "This is my body." If this book is so easy to be understood, why have Protestants spent so much time to explain it. Why spend time and money on Ministers? Protestants differ in their opinions. Perhaps it will be said, they differ on non-essentials. But if their *differences* are non-essential, where are the *fundamentals*? Is the puny mind of man to sit in judgement on his Redeemer.—How is it that there are some *two hundred* different denominations? Appealing to Mitchell, there are *twenty-eight* in America. If any one of these is right, then there are *twenty-seven* that are wrong. A man runs twenty-seven chances of going to hell to one of being saved. Would Christ, who shed his last drop of blood for our sakes, leave things in such a predicament as this? Can such a system come from God? This system judges God's Word by man's reason. What man cannot understand by his reason is rejected.—Scarcely had Luther started, when others started also, to the great chagrin of Luther. When he found he could not bring others to his belief, he was not backward to speak ill of them, and they returned his fire as well as they could. The Church of England, makes its Ministers swear to the thirty-nine Articles. The Presbyterians have their catechism, and all denominations have their Sunday schools to teach their doctrines.

Every nation that has been brought into Christianity has been brought in on the Catholic system, that is by preaching. It was not till the close of the last century that Protestants have advanced much knowledge. Since 1804 between thirty and forty millions of bibles have been printed. According to the statements of the British Ministry, etc, it is said that they had not obtained one convert for $10,000 expended. Why did not Luther get up a Bible of his own, then we would find no fault with it. Some years ago a Minister called on me and asked me why we kept the Bible away from the people. But he was surprised when I showed our Bible, to see that Pope Pius 9th, recommended all to read the Bible. Our Priests have been to the labor of transcribing the Bible and our Church has published the cheapest, as well as the most costly editions that have appeared in America.

Why have they gone to all this expense if the Bible is not to be read? The whole Church are recommended to read the Bible, to respect it and the God whom it reveals.

The Lecture closed as the former one did, with the Benediction of the Holy Sacrament. It was attended by a larger audience than the previous one, on the same subject and was well received by all present.

Dr. Mattison's Indian Emmenagogue.

GREAT INDIAN REMEDY

For Females.

Dr. Mattison's Indian Emmenagogue.

This celebrated Female Medicine, possessing virtues unknown of anything else of the kind, and proving effectual after all others have failed, is designed for both *married and single ladies*, and is the very best thing known for the purpose, as it will bring on the *monthly sickness* in cases of obstruction, from *any cause*, and after all other remedies of the kind have been tried in vain.

OVER 3000 BOTTLES

have now been sold without a *single failure*, when taken as directed, and without the least injury to health in any case. It is put up in bottles of three different strengths, with full directions for using and sent by express, *closely sealed*, to all parts of the country.

Prices—Full strength, $10; half strength, $6; quarter strength, $3 per bottle.

☞ *Remember! This medicine is designed expressly for* OBSTINATE CASES, *which all other remedies of the kind have failed to cure; also that it is warranted as represented in* EVERY RESPECT, *or the price will be refunded.*

☞ BEWARE OF IMITATIONS! None genuine and warranted unless purchased *directly of Dr. M., or at his office*, rear of No. 23 Union Street, Providence, R. I.

Dr. Mattison's Diuretic Compound,

For Acute and Chronic Gonorrhœa.

This new remedy contains neither Balsam Copaiva, Spirits of Nitre, Cubebs, Turpentine, or any other nauseous drugs, but is an elegant vegetable liquid, pleasant to the taste and smell, grateful to the stomach, cooling, cleansing and healing in its operation, and speedily allaying all heat and irritation in the urinary passages. You, therefore, who have been swallowing down *Balsam Copaiva*, either in capsules or mixtures, for months in succession, until with pale face and disordered stomach your breath and clothes are filled with its vile odor; throw away the disgusting mixtures, and send for a bottle of this *New Remedy*, which will not only cure you *at once*, but at the same time it will cleanse the system from the injurious effects of the various mixtures you have been taking so long.

☞ ONE BOTTLE, WHICH LASTS A WEEK, WILL OFTEN EFFECT A PERMANENT CURE.—Price $2.00.

Dr. Mattison's Syrup Anti-Syphilitique,

For Secondary, Tertiary and Hereditary Syphilis.

No remedy ever discovered has done what has been achieved by this. Under its use every form of constitutional syphilitic taint is speedily cured, and in a few weeks the subtle poison is completely eradicated from the system, and health and strength are permanently restored.

☞ *It was this remedy that cured in a few weeks a gentleman from the South, then stopping at Newport, and for which he presented Dr. M. with $450 besides his bill, after having been under the treatment of the most eminent physicians in Baltimore, Philadelphia and New York for* FIVE YEARS.

One bottle, which lasts a month, will often effect a perfect cure. Price, $10; half size, $5.

Dr. Mattison's Nerve Invigorator.

For Nervous Debility, Loss of Power, Impotency, Confusion of Thought, Loss of Memory, Irritable Temper, Gloomy Apprehensions, Despondency and Melancholy, which may end in Loss of Reason.

This new remedy for that fearful train of mental and physical evils arising from venereal excesses, and secret habits of the young, is composed of the most soothing, strengthening and invigorating medicines to be found in the whole Vegetable Kingdom, which, in combination, form the most perfect Antidote for this obstinate and distressing class of maladies ever yet discovered.—It has now been sent to nearly every State in the Union, relieving the untold sufferings of hundreds who have never seen the inventor, restoring them to comparative health, strength and happiness. *Prices*—Quart bottle, which last a month, $10; half size, $5.

☞ These four GREAT REMEDIES are the result of over twenty years' study and practice, and as now prepared they are known to be the *very best* for their respective purposes, and I am therefore induced to make them public for the mutual benefit of myself and the sick, who otherwise could never avail themselves of their benefits. They are all warranted as represented, in every respect, or the *price will be refunded.*

☞ Prepared and sold ONLY at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES rear No. 23 Union street, Providence, R. I., and sent by express, *secure from observation*, to all parts of the United States.

A WORD OF CAUTION.

☞ It has been estimated that over *Two Hundred Thousand Dollars* are paid to swindling quacks annually in New England alone; and that, too, without *any benefit* to those who pay it. All this comes from trusting, *without inquiry*, to men who are alike destitute of honor, character or skill, and whose *only* recommendation is *their own* false and extravagant *assertions*, in praise of *themselves*. The only way to avoid imposition is to take no man's word, *no matter who* the *pretensions are*, but MAKE INQUIRY. It will cost you nothing, and may save you many regrets; for, as advertising physicians in nine cases out of ten are *bogus*, there is no safety in trusting *any of them* unless you know *who* and *what* they are.

Dr. M. will send *free*, by enclosing one stamp as above, a Pamphlet on DISEASES OF WOMEN, and on *Private Diseases* generally; giving full information, with *the most undoubted references and testimonials* without which no advertising physician, or medicine of this kind is deserving of ANY CONFIDENCE WHATEVER.

☞ Orders by mail promptly attended to. Write your address plainly, and direct to DR. MATTISON, as above. 818-1y

NOTICE.—We are daily receiving orders to send by mail some one or more of Dr. Hurd's Dental Remedies, which we cannot fill.—None are mailable except the *Neuralgia Plaster*, which we send in an envelope on receipt of Price (15 cents) and one stamp.—But to accommodate persons in places where the druggists and store keepers are behind the age, we have put up packages in white embossed boxes, seven inches by four, with compartments—each box containing a bottle of *Dr. Hurd's Mouth Wash*, and *Tooth Ache Drops*, a box of *Tooth Powder*, the *Neuralgia Plaster*, and a valuable little Treatise on *Teeth and their Diseases, the best means of preserving them, and the proper treatment of Children's Teeth*, (worth of itself the entire cost to every young man or woman, or parents with young children;) with sundry other necessary articles; price per package, *one dollar*, or six packages for $5, sent by express as directed. As the Express charges are not much, if any, more on a dozen than on one, it is far cheaper to order six or a dozen packages at one time. A large family will want all, or the surplus can be disposed of to neighbors with public benefit, for no one can estimate how much pain, suffering, unhappiness, and disfigurement, expense, loss of time and money would be saved to the country if every family to-day had one of these packages, which, in itself, is a complete set of Dental Remedies. Address Wm. B. Hurd & Co., Tribune Building, New York, and write name and address plainly. That remittances may be made with confidence. W. B. H. & Co. refer to the Mayor of Brooklyn, to G. W. Griffith, President of the Farmers and Citizen's Bank, Brooklyn; to the Editor of the American Manufacturers' Gazette; to Joy, Coe & Co., Publishers' Agents, New York; to P. T. Barnum, Esq., who knows a good thing when he sees it and who has already ordered a second supply, etc.

1000 Agents Wanted,

To introduce Dr. Hurd's Dental Remedies into every County. Men or women who want to make money quickly, can do better with these articles than anything in market. They are new, useful, low priced, and we are spending thousands in advertising them, for the benefit of agents. Boxes of samples, containing a dozen of the one dollar packages above specified, with circulars will be sent on receipt of *seven dollars*, about half price, to any person wishing to test his or her skill in selling with the view of becoming an agent. They can be sold in a day.—☞ *We would rather pay salaries than Commissions to those who prove themselves efficient salesmen.*

☞ Now is the time to go into the business. For address and references see above.

GOV. SPRAGUE.

NEW YORK, 11th.

The Tribunes Washington despatch says that Gov. Sprague will be elected United States Senator. He goes to Yorktown tomorrow. Connecticut men here report Senator Dixons Election certain.

The Siege of Yorktown.

THE REBELS 100,000 STRONG,

COMMANDED BY GEN. JOHNSON AND JEFF. DAVIS IN PERSON.

THE REBELS

AWARE OF ALL THE MOVEMENTS OF OUR ARMY.

The Heralds Baltimorre letter says the number of rebel troops at Yorktown is not less than 10,000. Gen. Johnston is in command. Jeff. Davis is also there.

The rebels have all along known the movements of our Army from Manassas to Fortress Monroe.

ARMY NEWS.

MANASSAS, 10.

Notwithstanding the terrible storm of the last three days, the health of the troops in the Department of the Rappahannoch is unusually good.

The news of the capture Island No. 10, and the victory at Pittsburg was read to excited crowds. Particularly in the brigade composed of the western men.

The country between Manassas and Warrenton is effectually closed from rebels scouts.

Bentsville is occupied by our forces, many of the inhabitants remain, but appear indifferent to the advance of the Union army.

The Rebels are reported to be entrenching themselves on the South back of the Rappahannock.

MR. SEWARD.

NEW YORK, 11th.

The Tribunes Washington despatch says, Mr. Seward is not going to Corinth.

A MESSAGE.

The Times Washington despatch says the President sent a message to the Senate yesterday, relative to the Treaty recently agreed upon by Lord Lyons and Mr. Seward relating to the African Slave trade. If the treaty becomes a law it is believed that by a thorough compliance with its provisions the Slave trade will cease to exist in less than two years.

THE MERRIMAC.

BALTIMORE, 10.

The Old Point boat has arrived. The storm there has broke and the sun has made its appearance but it is still windy. Nothing has been heard of the Merrimac and it is doubtful whether in view of the late reverses in the West the rebels will have the courage to attempt offensive operations, even with her. If she ever does come out, it will probably to-morrow Friday.

POSTSCRIPT.

LATER FROM YORKTOWN.

Parties from the army of Yorktown, report no special change. There is continual skirmishing.

A brilliant little affair occurred yesterday morning, in which Griffins Battery participated with marked effect, killing and wounding 27 Rebels.

The Rebel position extends across the Peninsula, from Yorktown to Warwick near James River, a short distance above Mulberry Point. The conformation of the land shortens their line of defence and enables them to command with their fortifications, all the roads up the Peninsula.

Generals Lee and Johnston are both reported to be with the Rebel forces. One commanding at Yorktown and the other at Warwick. Magruder holding a subordinate command is with the Reserves at Williamsburg.

According to the reports of deserters, the Rebel force is about fifty thousand, of whom thirty thousand are reinforcements from the line of the Rappahannoch and about Norfik. Despite the weather and bad roads, our Generals are pushing forward preparations for an assault upon the enemy's works, and not many days will elapse before Yorktown will be ours and Richmond threatened.

The glorious news from the west stimulates the Soldiers to win equal honors. Bordens sharpshooters hold an advance position under the rebel batteries and constantly harrass the enemy, they rarley miss their mark. The rebels keep well under cover,

One sharpshooter belonging to the California Regt. has almost wholly prevented the rebels from using their large guns in an important position. It is reported that one of our Divisions has secured an important position the holding of which will lead to the eventual forcing of the rebel line of defence.

Much important predeminary work is to be done by our troops and with the return of good weather active operation will hardly be postponed many days.

The task before Gen. McClellan, the reduction of fortified entrenchments is that for which he is held to be especially qualified and the result is not doubtful.

FROM THE WEST.

ST. LOUIS, 10th.

The Police of this city yesterday broke up an extensive counterfeiting establishment and seized about 25,000 in bogus U. S. Treasury notes and some 10,000 dollars in counterfeit notes on the State Bank of Indianna together with 11 Bank Note plates and an assortment of implements and materials used by Bank Note engravers.

An adroit counterfeit note ingraved, name Harvey Walker, alias Hill a number of suspicious characters residing here all known to have been heretofore engaged in the sale or passing counterfeit bills were arrested.

IMPERIAL YEAST POWDER,

A new article, which is pure, reliable and economical.

I have analyzed Samuel Kidder & Co's 'Imperial Yeast Powder,' manufactured by Messrs. Daniel F. It produces, with even ordinary flour, white, spongy and perfectly wholesome bread, and retains its power of action under exposure. Being free from mineral acids, and dangerous metallic salts, it should be preferred to compounds, frequently sold as yeast powders.

Medicines.

PROF. L. MILLER'S

HAIR INVIGORATOR

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND.

FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing Hair from turning gray.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or recuperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections of the Scalp.

FOR BEAUTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from dandruff and other cutaneous diseases, causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance; and also where the hair is becoming and thinning, it will give strength and vigor to the roots, and restore the growth to those parts which have become bald, causing it to yield a fresh covering of hair.

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the hair from turning gray until the latest period of life; and in cases where the hair has already changed its color, the use of the Invigorator will with certainty restore it to its original hue, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fragrance; and the great facilities it affords in dressing the hair, which, when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curls—hence the great demand for it by the ladies as a standard toilet article which none ought to be without, as the price places it within the reach of all, being

ONLY TWENTY-FIVE CENTS

per bottle, to be had at all respectable druggists and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the children's Hair inclines to be weak. The use of it lays the foundation for a *good head of hair*, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair.

CAUTION.—None genuine without the fac simile LOUIS MILLER, being on the outer wrapper, also, L. MILLER'S INVIGORATOR, N. Y. blown in the glass.

THE SPECIFIC PILL.

A SPECIFIC REMEDY FOR

Spermatorrhea or Seminal Weakness, and Genital Irritability in either Sex.

This Malady, the *terrible consequences* of which are too well known to require more than a bare allusion to them, is one of the most insidious, and therefore dangerous, of all the long catalogue of human ills. It saps the very springs of life, rapidly undermines the constitution, and sinks the unhappy victim into imbecility and a premature grave! From one to six boxes of the SPECIFIC PILL are sufficient to effect a permanent cure in the MOST AGGRAVATED CASES, whether *Constitutional*, or arising from *Abuse* or *Excesses*.

MEDICAL TESTIMONY.

"We believe it to be, in the treatment of *Spermatorrhea*, as near a SPECIFIC as any medicine can be."—B. KEITH, M. D. [*Am. Jour. of Medical Science.*]

"I have found them *all that could be desired*. Their effect HAS BEEN TRULY WONDERFUL. I used them in a case of Spermatorrhea *of long standing* which has been under treatment *for years*. I think three boxes will complete the cure."—E. P. DICKEN, M. D.

This is not a Homœopathic Remedy, nor is there any mercury or other deleterious ingredient combined with it.

SOMETHING MORE VALUABLE THAN SILVER OR GOLD,

HEALTH

IT WILL RESTORE THE WEAK, REINSTATE THE BLOOD IN ALL ITS ORIGINAL PURITY AND VIGOR.

It is

PROF. O. J. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR!

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilarating and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all.

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach* and tone up the digestive organs, and allay all nervous and other irritation. It is also perfect by exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits.—It is composed entirely of vegetables, and these thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, INDIGESTION, DYSPEPSIA, LOSS OF APPETITE, FAINTNESS, NERVOUS IRRITABILITY, NEURALGIA, PALPITATION OF THE HEART, MELANCHOLY, HYPOCHONDRIA, NIGHT SWEATS, LANGUOR, GIDDINESS, AND ALL THAT CLASS OF CASES SO FEARFULLY FATAL, CALLED FEMALE WEAKNESSES AND IRREGULARITIES,

THERE IS NOTHING ITS EQUAL.

Also, Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, or any general derangement of the Urinary Organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from miasmatic influences, and cure the diseases at once if already attacked.

TRAVELERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon change of climate and water.

As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits.

LADIES not accustomed to much out door exercise should always use it.

MOTHERS should use it, for it is a perfect relief, taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety!

There is no mistake about it!!

THE CORDIAL IS ALL WE CLAIM FOR IT!! MOTHERS TRY IT!!

And to you we appeal, to detect the illness or decline not only of your daughters before it be too late, but also your sons and husbands, for while the former from false delicacy, often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they, too, would travel in the same downward path until it is too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR as the remedy which should be always on hand in time of need.

O. J. WOOD, proprietor, No. 444 Broadway, New York, and No. 114 Market Street, St. Louis, Mo., and sold by all good druggists. Price one dollar per bottle.

Read what the Press say, after thoroughly testing the matter, and no one can have a doubt:

Prof. WOOD'S Restorative Cordial and Blood Renovator is a genuine medicine of real merit, pleasant to the taste and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resist the assault of disease. It is a chemical compound so skilfully combined that while it exhilarates it does not provoke the lassitude which usually follows excitement. A tonic, composed exclusively of vegetable matter it is absolutely beneficial and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite, Faintness, Nervous Debility, Neuralgia, Palpitation of the Heart, Falling of the Womb, and other delicate diseases to which woman is subject. For Sickness of the Stomach, Bilious Attacks, Liver Complaints, Costiveness, Dyspepsia, Consumption and a host of ills flesh is heir to, it is a certain cure.—*St. Louis Morning Herald.*

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the Classics that Psyche was once sent to a climate warmer than the West Indies, to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the lid of the box we a removed, out flew all the ills that flesh is heir to. Fortunately hope was found in the bottom of the box. Prof. WOOD'S Restorative Cordial revives the recollection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health, so as to bid defiance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with loss of appetite, Dyspepsia, Consumption, Faintness, Giddiness, Neuralgia, Palpitation of the Heart, &c., will find here an infallible panacea.—*St. Louis Daily Express.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is, without doubt the best tonic Cordial in the world. To those who are suffering from General Debility, we would recommend its use, for it is pleasant to the taste, is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest stomach, while those in good health will at once feel its exhilarating power. We are confident that after using one bottle of this Cordial none will be for a day without it.—*New York Leader.*

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and thus sooth the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human body is composed, is offered in Prof. WOOD'S Restorative Cordial and Blood Renovator. Hence, it is perfectly adapted to old and young. Reader, try it. Thousands have already done so, and the testimony is universal in its favor.—*New York Atlas.*

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, for the cure of General Debility, or Weakness arising from any cause; also, Dyspepsia, Nervousness, Night Sweats, Incipient Consumption, Liver Complaints, Biliousness, Loss of Appetite, Female Weakness in all stages; also to prevent the contraction of disease, is certainly the best and most agreeable Cordial tonic and Renovator ever offered to the afflicted, and so chemically combined as to be the most powerful tonic ever known to medical science. Reader, try it. *It will do you good.* We have no hesitation in recommending it, since we know it to be a *safe, pleasant and sure* remedy for the diseases enumerated.—*New York Dispatch.*
